***Founder of Nemenhah ITO, Tehk Tiwehkthihmpt/President of the Sacred Order of Lehb (Nemenhah ITO).***

Dr. Landis (a.k.a. Chief Cloudpiler) began his journey into Natural Medicine with his own battle with chronic illness in his early years, culminating in terminal cancer as a young adult. His battle for survival brought him out of the allopathic haze in which he was raised and motivated him to obtain a Doctorate in Naturopathic Medicine. In clinic, and for more than twenty subsequent years, he has specialized in incurable disease and it is from his experience with sufferers of cancer and AIDS that he has developed the Nemenhah Reverse, Restore, Renew Program; an essential element of the Sahaptan Healing Way.

Dr. Landis currently sits as President of the Nemenhah Church, Dean of Students in the University of Nemenhah, Pehli Mentor, and primary Naturopathic Compounder for the Ahkehkt Apothecary program. He maintains a small private practice in Stockton Missouri and provides telephone consultations by appointment.
